*Note: The process in Windows 10 follows the same steps as in Windows 11* 

To access PIN settings for the FID02 key in Windows 11, open Settings, and navigate to Accounts and under Sign-in options choose option Security key.

# 1. Adding a PIN for FID02 Key

### Accounts > Sign-in options

#### Ways to sign in

÷	Facial recognition (Windows Hello) This option is currently unavailable		~
<i>١</i>	Fingerprint recognition (Windows Hello) This option is currently unavailable		~
ij	PIN (Windows Hello) Sign in with a PIN (Recommended)		~
Ö	Security key Sign in with a physical security key		^
	Sign in to apps with a physical security key	Manage	
Þ	Password Sign in with your account's password		~
	Picture password Swipe and tap your favorite photo to unlock your device		~

Press Manage, and the process for adding or changing the PIN of the FIDO2 key is started. The first step is inserting your FIDO2 key into the USB port and then touching the button of your FIDO2 key, as instructed by the tool. If you have not set a PIN for your FIDO2, the options are as follows:

Windows Hello setup			
	Security Key PIN		
	Add		
С	Reset Security Key		
Ŭ	Remove everything from this security key and reset to factory settings		
	Reset		
	Close		

To set a PIN, press Add, and following screen is shown:

Windows He	ello setup		×				
Set up a security key PIN							
	•••••						
•	•••••						
	-						
	ОК	Cancel					

After the PIN of your choice is set, press OK and the FIDO2 key is now secured by your personal PIN code.

# 2. Changing the PIN for FID02 key

The process of changing the PIN of a FIDO2 key that already has a PIN follows similar steps:

Navigate to Settings  $\rightarrow$  Accounts  $\rightarrow$  Sign-in options  $\rightarrow$  Security key  $\rightarrow$  Manage

The following screen is shown:

Windows Hello setup X				
	Security Key PIN			
	Change			
Reset Security Key				
	Remove everything from this security key and reset to factory settings			
	Reset			
	Close			

Insert your current PIN and below it the new PIN two times.

Windows Hello setup							
Change your security key PIN							
	•••••						
•	•••••						
	•••••						
		,					
	ОК	Cancel					

After pressing OK the FID02 key has a new PIN set.

## 3. Resetting the FID02 key

Note! Process removes all data and credentials on the FIDO2 key. Only use the tool if you are sure you want to reset the FIDO2 key to factory settings.

It is possible to reset your FIDO2 key using the Windows Hello setup tool:
